Inexpensive Mercury Dime

—Perfect for a Quality Type Set—

Lovely 1950-D Franklin Half Dollar

Superb 1912 Lincoln Cents

1909-D \$5s from an Original Roll

1909-D Indian head \$5 gold piece, or half eagle. The largest example of Bela Lyon Pratt's attractive incuse Indian design (which occurred in the \$2.50 series, too). A particularly fine specimen for your date or type set: MS-63, Brilliant Uncirculated. Far fewer than the average number of bagmarks (though, since the field, which is the major portion of the coin, is raised above the design, virtually all coins of this type have some bagmarks). Special offer: regularly \$325 apiece. Special at 315.00

1950-D Franklin half dollar in silver. Liberty Bell on the reverse. A nice chance to obtain a select example for your type or date set! MS-65, Brilliant Uncirculated. About as nice as these come! Just 19.00 apiece

Key Jefferson Nickel

1939-D Jefferson nickel. The key issue in this series. We've offered these before (as Gem BU before we adopted the ANA numerical grading system) and they have always been popular. So we're repeating the offer with new purchases. MS-65, Brilliant Uncirculated. Offered at less than catalogue! Regularly \$45 each in our stock. Special at just 42.00 each

Special Coin Letter

Bruce Lorich, Editor

A frequent publication of Bowers & Ruddy Galleries, America's largest dealer in rare coins of the United States. The *Special Coin Letter* emphasizes the changing market and offers special buys selected from our vast stock. Our comprehensive, illustrated catalogue, the *Rare Coin Review*, is issued approximately three times a year; a sample copy of our most recent issue is available for \$3 via surface mail, or we will send you a copy by First Class mail for just \$5 (the cover price, without postage, is \$5).

A subscription to our next 8 full-size catalogues (both *Rare Coin Reviews* and our frequent auction catalogues) plus lists of prices realized for included auctions and the monthly *Special Coin Letter* costs just: \$15 for any address via surface mail (not recommended for overseas); \$25 via First Class mail to U.S., Canadian or Mexican addresses (strongly recommended for residents of Hawaii and Alaska); \$37 via Air Mail to any other foreign address. First Class or Air Mail is recommended for those interested in bidding in our auctions because surface delivery sometimes means that the catalogue will reach you after the deadline for submitting bids.

Terms of Sale & Guarantee

1. Enclose full remittance with order unless credit has been established. A prompt cash refund will be given for any part of an order not filled.

2. Add \$1.50 to all orders under \$100 to cover postage and handling. All other orders are sent postpaid and insured at no charge. California residents, please add 6% state sales tax or furnish proof of resale permit.

3. As many items listed are one of a kind in our stock, alternate choices will be appreciated—and will not be used unless the first item(s) requested has been sold. If you are ordering for a type set, just put "same type" as your second choice and we will substitute a coin of equal or higher grade and value if the first item requested has been sold subject to your approval, as always. Title to all items remains with Bowers & Ruddy Galleries, Inc., until payment in full has been received. All items are subject to prior sale or price change without notice, but all items offered are in stock at presale. Photos are of the actual coins offered for sale, or representative coins in the case of type or special offers.

4. GUARANTEE: Any item not satisfactory for any reason may be returned within 15 days for an immediate cash refund or replacement (as you wish). No explanation is necessary—but one is often helpful if you request a replacement. United States coins are graded by the official A.N.A. numerical grading system. All items are absolutely guaranteed genuine—this is a lifetime guarantee.

5. CHARGES: We accept Mastercharge, Visa (BankAmericard) and American Express credit cards for all purchases. Please send us the information in raised print on your card if you charge your purchase. Do not send your card!

Words on Coins

Now's a GREAT time to buy rare coins! The market is extremely active, recalling the early days of the boom period experienced by the rare coin business several years ago. Will you be in on rarities and quality type coins at the right time? We earnestly hope you will be, and to this end we recommend a careful examination of the contents of this issue of the *Special Coin Letter* as well as our recently published *Rare Coin Review* No. 30 (if you haven't received a copy and would like to, mail us either \$3 or \$5 for a copy postpaid, or take out a subscription to our entire list of mailings—as explained in detail in the column just to the left of this).

We have always concentrated on quality here at Bowers & Ruddy Galleries, Inc. Our stock, which is huge and perhaps the largest of its kind in the world, is especially rich in rarities, scarce dates and mintmarks, and type dates which are especially select. A good way to buy them at the most competitive price is through the publication you are now holding in your hands. The *Special Coin Letter* has grown over the last couple of years so that today it does a tremendous amount of business for us—our profit is less (and your savings are more!) when we sell through this publication, but it produces one immeasurable quality: we deliver coins of wonderful quality to you at a price you probably cannot match anywhere else. The result? Happy customers. Just what we're aiming for!

Our United States offerings this month are very alluring. We've concentrated on new purchases and hoards which came in after the publication of our new *Rare Coin Review*. So look through both publications for a number of excellent buys! Silver dollars of truly high quality, gold pieces, popular Lincoln cents, a couple of specials repeated as a result of customer demand, modern inexpensive dimes and half dollars, and an absolutely fabulous hoard of mint state Hawaiian quarters—these and more await your orders. If you're an old customer, you know what to expect. We'll welcome your order, as always. If you're new to B&R, we hope you'll order generously for you can absolutely trust our grading and prices. At least try a small order: we know you'll be back for more!

Our foreign section this month provides the collector with a fine assortment of excellent coins, too. The designs are eye-catching, many of the pieces are of historic interest, and the values are genuine: lots of coin for, in most cases, just a few dollars. Rarities appear here, too: new purchases for the most part, and accurately priced. Our world coins stock is mostly new, having undergone a great change in recent months. We would love to receive your want list—no matter the country, no matter the period, no matter the value (\$10 or \$10,000) of the coin desired. Address it to Frank Draskovic, manager of our World Coins Department. He'll treat you right!

Beautiful 1950-S Roosevelt Dime

1950-S Roosevelt silver dime. One of the keys in this series. A superb example: MS-65, Brilliant Uncirculated. Just 15.00

HAWAII Overprint Currency

—Issued during World War II—

1935-A Series \$1 United States currency. F-2300. Issued during WW2 and overprinted with HAWAII to designate its official use in Hawaii during the war. This was largely a measure by the government to preclude a flood of counterfeits of U.S. currency by the Japanese—which event was greatly feared since it would have brought economic chaos to the islands in a time of great peril. Thus, this historic issue should be of great interest to WW2 buffs as well as the general currency collector. If you own no currency, perhaps it would be a good way to break into this interesting and rewarding field of numismatics! Choice New condition. Each 20.00

Numerical Grading in a Nutshell

The numerical mint state grading system used in this publication is based upon the official ANA grading standards. These are the ANA grade equivalents to the same, careful grading system we have been using for years:

Proof-65 (or higher) = Gem Proof

Proof-63 = Choice Proof

Proof-60 = Average Proof

MS-65 (or higher) = Gem BU

MS-63 = Choice BU

MS-60 = Average Uncirculated

1935 50c from an Original Roll

1935 Philadelphia Mint walking Liberty half dollar. We've just purchased a full original roll of these—all nice—and offer you one at a very special price. MS-65, Brilliant Uncirculated. Rarely found finer! Special offer (hurry!) at just 42.00 each

Inexpensive Colonial Restrike

Rhode Island Ship token restrike. This imaginatively designed colonial piece was originally struck about 1778-1779. It was actually a medal with a Dutch inscription, but was probably conceived and struck in England as a farcical political medal—since the theme depicted is that of the retreating Continental troops. The obverse features a sailing ship of the period. The reverse is of "primitive" character: the island and figures are out of proportion, much like the primitive art of someone like Grandma Moses of our own time. Interesting and conversational! Now the original specimens are very scarce and quite expensive. We offer a neat alternative: the Horace M. Grant restrike of the 1930s. This is a struck copy, showing all the detail of the original. As struck (MS-65, BU) and cheap at 9.00 each

Select Hawaiian Quarters
—Taken from an Original Roll!—

1883 Quarter dollar from the Hawaiian Islands. Traditionally collected by American numismatists but also avidly sought by collectors of coins of the world. Listed on page 250 of the 1978 Red Book (though current prices have made the values listed there obsolete). We recently purchased incredibly enough a full original roll and offer pieces from it as follows:

MS-63, BU	189.00
MS-65, BU	225.00

Prooflike Carson City
Morgan Dollar

1890-CC Morgan silver dollar. One of the popular dollars from this Wild West mint! A very special offer: we've just obtained 8 fully prooflike pieces, and offer them at a price which should result in an immediate sellout. So order fast! MS-63, prooflike. Brilliant Uncirculated. Full mirror surfaces. Special at a reasonable 195.00 each

Rare Type 2 Gold Dollars on Sale

1854 or 1855 (our choice of date) Type 2 gold dollar. We have just purchased a tiny hoard of these rarities and offer them at a special price this month. The obverse shows a finely executed portrait of an Indian "princess" in a feather bonnet. Nice EF-40. Regularly \$375 each. Special at 349.00

Repeated Double Eagle Special
—Only a Few Left!—

Earliest type of \$20 gold piece, or double eagle, as coined from 1850 to 1866. A short while ago we obtained a tremendous hoard of some 200 pieces ranging in dates from 1851 through 1864. We listed these by date and mint in one of our *Coin Letters* last fall. Well, most of the dates have now been sold, but we have enough pieces left (fewer than three dozen) to offer them at a type price. These are all better than are usually seen—having relatively few bagmarks or heavy abrasions (which most often appear on double eagles of the early years). Once these are gone, the price will increase, as wholesale prices are approaching the \$300 level. Buy now! EF-40. Regularly \$325 apiece. Special at \$299, or buy 3 different pieces (limit: 3 per customer) for only 885.00

Sesqui Commemorative Set

Pair of commemoratives issued to celebrate the 150th anniversary of American independence. Appropriately, the symbols and heroes of our liberty appear on the faces of these coins. On the silver 50c piece (which, incidentally, has a dishd or concave appearance) are the conjoined portraits of Presidents Washington and Coolidge (in office at the time of issue, 1926), and on the back the Liberty Bell. The gold \$2.50 piece shows a standing figure of Liberty holding the torch of freedom and a scroll representing the Declaration of Independence, our most important historical document; Independence Hall is shown on its reverse. Both were issued in 1926. We've put together a select set in a custom plastic holder just for you! Both pieces grade MS-63, BU, or better. Way above average! Special for the housed set 275.00

Lovely Toned Proof Dime

Last type of seated Liberty dime, as struck 1875 through 1891. A very pretty specimen for your advanced type set. Proof-63 with attractive original toning. Never dipped or fussed with! Date of our choice. A nice offer which we must place a limit on: 2 coins per customer, please. Regularly \$299 each. Special at 275.00

Two Early Washington Quarters

Super Roll of 1939 Half Dollars!

1939 Walking Liberty half dollars—superb pieces from a splendid original roll we've just purchased! Extremely popular. One of the least expensive issues of the 1930s, but for how long can it remain under \$100? Two excellent grade categories to choose from:
MS-65, BU 69.00
MS-67, BU 79.00

We're grouping this special offer together under a single heading because both pieces are scarce early Washington quarter issues. The grades are very high, and both issues have a price history which points in only one direction—up! Consider these—or either one for your type set:

1936-S MS-65, BU 89.00
1938-S MS-65, BU 69.00

Prized 1902-S Morgan Dollar

1902-S Morgan silver dollar. Much prized by collectors in high grade. This issue is notorious for its usual condition of being bagmarked and having bad striations. These are a very pleasant exception! MS-65, Brilliant Uncirculated. About as fine as one can find! Regularly \$395 each (when we have them). Special at 375.00

Delightful Lincoln Cents —In the Finest Grades—

Recently we acquired a number of select, original rolls of Lincoln cents from the late 1920s and early 1930s. These are some of the most reasonably priced cents, and we hope you will consider all for your date set—or any one of them for your type set, if this is how you collect. A really fine group:

1929-D MS-65, BU 15.00
1929-S MS-65, BU 12.00
1930-S MS-65, BU 12.00
1932 MS-65, BU 22.00
1932-D MS-65, BU 27.00
1933-D MS-65, BU 26.00
1933-D MS-67, BU 32.00

COINS OF THE WORLD

In the following list the collector will find choice and rare examples in the categories of foreign gold, crowns and minor coins. Most are new purchases in popular areas and high grades, but some old stock is also included at rock-bottom prices. Check the listing carefully and take advantage of the "wholesale" prices.

We also have a fine selection of ancient coins and antiques, our most popular new area, which we think you'll find interesting and attractive. Box specials and hoard groups are represented as well, making this list a "something for everyone" affair. We hope you enjoy it! Minimum total order \$25, please!

— Antiquities —

Artifacts of the Ancient World

In our December 1977 *Special Coin Letter*, we offered for sale some antiquities which we had accumulated over a period of time. Because of the universal appeal of ancient art (one need not be an ancient coin collector, or a coin collector at all!), we were pretty sure that we'd sell out, and of course we did. But what did surprise us was the very short period of time it took to sell out—just a few days.

In thinking about this further, we realized that we really should not have been all that surprised, for there is considerable interest in the ancient world and its fascinating, beautiful and historical artifacts.

In fact, to cite a current example of this popularity, here in Los Angeles 661,000 tickets to the King Tutankhamen exhibition from the Cairo Museum in Egypt were sold in just three days—a complete sellout—for an exhibit that had not even opened yet!

Additionally, these relics of past millennia are much valued for their

artistic and educational aspects. There is no disagreement that some of the finest art ever produced was handmade over twenty centuries ago. Today, these objects of art are of inestimable value because they help us to understand what life was like at a time when western civilization was in its infancy.

When we tried to obtain some of the items to fill back orders last December, we found that this growing interest was being felt everywhere, as dealers' stock were pretty well depleted. This situation will definitely get worse as a static supply does battle with an increasingly stronger demand.

As long as we feel there is interest, we will continue to offer interesting specimens as they become available. The selections that follow are mostly one of a kind, except where noted; therefore we recommend a quick order if an item appeals to you.

Ancient Egypt

Ptolemaic (Greek) Period (300-100 B.C.)

Late Period—27th Dynasty (525-404 B.C.)

Late period—27th dynasty (525-404 B.C.).
Petrie-245, bronze falcon, approximately 1 1/8 x 3/4 inches, wearing the double crown of Egypt. The falcon was sacred to the Egyptian god Horus (see description below), who was himself sometimes represented as a falcon. This specimen has red and green patina and is mounted (removable) for display. Priced at 250.00

A finely modeled bronze statue of Horus, an Egyptian sun god. Horus, also worshipped in Greece and later at Rome and called Harpokrates in Greek, was the last-born son of Osiris and Isis. He is commonly represented as a youth, holding a cornucopia in his left arm and with his finger to his mouth, indicating secrecy and mystery. During the early period of his worship at Rome, Horus was also thought of as the god of silence and a quiet life.

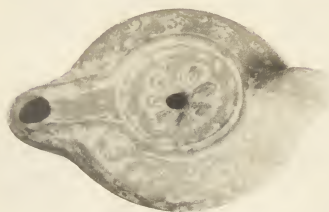

This specimen has a radiate crown (representative of the sun's rays) on the head of a robed Horus and is well detailed in fine style with obvious Hellenistic influence. In a removable mount for display. And priced at only 350.00

Roman Period (1st-3rd Centuries A.D.)

Another bronze statue of Horus, this time nude, chubby, seemingly younger and with a disclike (sun) headress. Mostly green and brown patina, the right foot missing. A charming specimen, mounted for display. Priced at 290.00

Red Terra-Cotta Oil Lamps from North Africa (5th-7th Centuries)

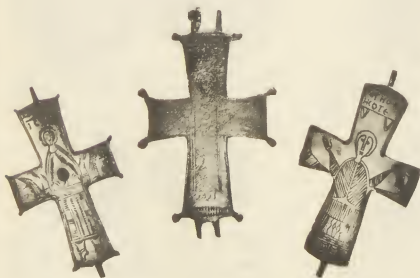

In our December 1977 *Special Coin Letter*, we offered (and sold out of) similar lamps which were of a very plain type with little or no design. The present specimens have much more detail—central floral designs, geometric patterns, engrailed sides, etc.—and are really very attractive. They are fashioned of red terra-cotta and are four to six inches long. Each 85.00

As above but rather than a floral design in the center there are renditions of animals or people. These more finely detailed lamps are priced at 150.00 each

Roman Erotic Style Oil Lamps

These slightly smaller lamps (about four inches) portray erotic scenes on the upper portions. Of the Roman Empire (Italy and provincial), they are of terra-cotta, date from 50 to 150 A.D. and are very rare. We have three pieces, each priced at 495.00

Byzantine Crosses

These bronze crosses are generally of two main types: votive, used for veneration in churches or homes, and reliquary, consisting of two halves placed together to form a hollow center into which a sacred relic (e.g., a piece of the "true cross," part of a saint's garment, etc.) was placed. These crosses were normally worn.

The crosses offered below are of the reliquary type, two complete crosses and three beautiful halves. All date from about 1,000 A.D.

Bronze reliquary crosses, 3 to 3½ inches long with a detailed figure of Christ, robed and with outstretched arms, as well as other decorative designs. Each half is in remarkably fine condition and is priced for you at just 235.00

Bronze reliquary cross (complete with both halves attached). A 3¼-inch, two-piece cross attached at the bottom, with dot and circle design on both sides. This piece is in exceptional condition and can be worn if desired. Priced at 250.00

A 2½-inch, two-piece cross that has never been opened! We were very curious but decided that, if it was ever to be opened, the final owner should do it. This specimen has a line and dot design and an original suspension loop. Again, the condition is excellent. Priced at 250.00

Special Coin Letter

Bruce Lorch, Editor

A frequent publication of Bowers & Ruddy Galleries, America's largest dealer in rare coins of the United States. The *Special Coin Letter* emphasizes the changing market and offers special buys selected from our vast stock. Our comprehensive, illustrated catalogue, the *Rare Coin Review*, is issued approximately three times a year; a sample copy of our most recent issue is available for \$3 via surface mail, or we will send you a copy by First Class mail for just \$5 (the cover price, without postage, is \$5).

A subscription to six next 8 full-size catalogues (both *Rare Coin Review* and our frequent auction catalogues) plus lists of prices realized for included auctions and the monthly *Special Coin Letter* costs just: \$15 for any address via surface mail (not recommended for overseas); \$25 via First Class mail to U. S., Canadian or Mexican addresses (strongly recommended for residents of Hawaii and Alaska); \$37 via Air Mail to any other foreign address. First Class or Air Mail is recommended for those interested in bidding in our auctions because surface delivery sometimes means that the catalogue will reach you after the deadline for submitting bids.

Terms of Sale & Guarantee

1. Enclose full remittance with order unless credit has been established. A prompt cash refund will be given for any part of an order not filled.

2. Add \$1.50 to all orders under \$100 to cover postage and handling. All other orders are sent postpaid and insured at no charge. California residents, please add 6% state sales tax or furnish proof of resale permit.

3. As many items listed are one of a kind in our stock, alternate choices will be appreciated, and will not be used unless the first item(s) requested has been sold. If you are ordering for a type set, just put "same type" as your second choice and we will substitute a coin of equal or higher grade and value if the first item requested has been sold—subject to your approval, as always. Title to all items remains with Bowers & Ruddy Galleries, Inc., until payment in full has been received. All items are subject to price sale or price change without notice, but all items offered are in stock at presale. Photos are of the actual coins offered for sale or representative coins in the case of type or special offers.

4. GUARANTEE: Any item not satisfactory for any reason may be returned within 15 days for an immediate cash refund or replacement (as you wish). No explanation is necessary, but one is often helpful if you request a replacement. United States coins are graded by the official ANA numerical grading system. All items are absolutely guaranteed genuine—this is a lifetime guarantee.

5. CHARGES: We accept Mastercard, Visa (BankAmericard) and American Express credit cards at all purchases. Please send us the information in raised print on your card if you charge your purchase. Do not send your card!

Telephone Service

Any item offered here may be reserved by telephoning us during business hours: Monday through Friday, 9 a.m. until 1:30 p.m. Our toll-free WATS number (outside California) is: (800) 421-4224. Other calls to: (213) 166-4595. Call collect for an order over \$200.

Words on Coins

What a fabulous hoard of new purchases we are bringing your way in this issue! Take a careful look through the following pages—you're sure to discover a host of coins you would like to add to your collection or investment group (the problem will probably be deciding among the many pieces you'd like to own!). Please make certain that you take advantage of our Second Choice service by listing as many second choices on the back of your order blank as possible. We hope you'll receive your first choice(s), of course, but the coin market is so active these days that we are having trouble replacing the coins we sell from our stock. Buy now; it looks as if prices will never be lower than they are today!

Selling your collection? We want to buy it! We really are having difficulty keeping our stock up to the level where it should be. So if you have been thinking of selling your collection, or some nice pieces from it, try us! Securely package your coins, mail them registered or insured, and we'll respond with our highest offer.

LAST CHANCE TO BE PART OF THE ANA SALE. That's right, within the next couple of weeks we will be closing consignments which will be included in the magnificent sale catalogue we are busy preparing for the upcoming ANA Convention auction, which we have been chosen to conduct this year. It should prove to be the event of the year, numismatically speaking, and we can't think of a better place to offer your high-quality rarities, superb type coins or possibly even unique specimens. What do you have? Why not contact us about the possibility of placing it in this great sale?

The ANA auction this year will be restricted to 3,000 lots of particularly fine quality coins and currency. Each lot is being specially prepared, and the limitation (for this sale only) will be that the lot must be "special." If you believe you have one or more pieces which are "just right" for this sale, call us on our toll-free WATS line and tell us about it; the total consignment must be at least \$2,000. Let Bob Korver, manager of our Auction Department, explain the advantages of selling through a Bowers & Ruddy Galleries auction and why you should place your rarities in our ANA auction! We believe the results will absolutely delight you. Let us prove it!

We also want to thank you for the wonderful way you've been responding to our various price lists. Evidently the truth (a well-kept secret at least from the rest of the collecting world) is escaping at last: Bowers & Ruddy Galleries does supply the finest buys in all of coindom! New customers have been comparing the great coins we deliver, and their reasonable prices (considering the quality), and are abandoning other dealers in droves. Gosh, we don't have enough coins for everyone!

Want List Service Available

Looking for something not listed in these pages? We can get it for you! Our stock is constantly changing. Contact us with your want list! You'll be buying from the finest dealer!

Repeating a Very Popular Special

Yes, for a third (and no doubt final) time we are offering you truly select, fully brilliant 1921 Lincoln cents from a fabulous hoard we purchased—a group of ten original rolls kept together from the time of issue. Only one grade remains: MS-63, Brilliant Uncirculated. But each coin is so nice that you would swear it's a full MS-65 (the truth is, we had a small number of fabulous pieces, which we called MS-65, so we called the "merely" beautiful ones MS-63). Guaranteed to please—and we bet this coin is every bit as lovely as what most other sellers call "Gem BU." The price is very special, too! In stock at \$52 each, but—only for as long as our dwindling stock remains—you may own one for the special price (limit: 3 per customer) of just 45.00 each

Essential Jewish Coins Reference

Just released by Attic Books is a *Guide to Ancient Jewish Coins* by David Hendin. It is a comprehensive, hardcover book of 122 descriptive pages and two hundred or so line engravings, with nine additional pages of photographic plates. The excellent line drawings show the details of those all-too-often crudely struck coins. While the pricing guide is useful and appreciated, some inconsistencies are noticed and should be taken, as the author wisely states, as retail approximations. Tables of legends and a bibliography conclude the volume. Highly recommended! Price per book 13.50 postpaid

Special Coin Letter

Bruce Lorch, Editor

A frequent publication of Bowers & Ruddy Galleries, America's largest dealer in rare coins of the United States. The *Special Coin Letter* emphasizes the changing market and offers special buys selected from our vast stock. Our comprehensive, illustrated catalogue, the *Rare Coin Review*, is issued approximately three times a year; a sample copy of our most recent issue is available for \$3 via surface mail, or we will send you a copy by First Class mail for just \$5 (the cover price, without postage is \$5).

A subscription to our next 8 full-size catalogues (both *Rare Coin Review* and our frequent auction catalogues) plus lots of prices reduced for included auctions and the monthly *Special Coin Letter* costs just: \$15 for any address via surface mail (not recommended for overseas); \$25 via First Class mail to U. S., Canadian or Mexican addresses (strongly recommended for residents of Hawaii and Alaska); \$37 via Air Mail to any other foreign address. First Class or Air Mail is recommended for those interested in bidding in coin auctions because surface delivery sometimes means that the catalogue will reach you after the deadline for submitting bids.

Terms of Sale & Guarantee

1. **ENTIRETY:** Full remittance with order unless credit has been established. A prompt cash refund will be given for any part of an order not filled.

2. **ADD \$1.50** to all orders under \$100 to cover postage and handling. All other orders are sent postpaid and insured at no charge. California residents, please add 6% state sales tax or furnish proof of resale permit.

3. As many items listed are one of a kind in our stock, alternative choices will be appreciated and will not be used unless the first item(s) requested has been sold. If you are ordering for a type set, just put "same type" as your second choice and we will substitute a coin of equal or better grade and value if the first item requested has been sold subject to your approval, as always. Title to all items remains with Bowers & Ruddy Galleries, Inc., until payment in full has been received. All items are subject to price sale or price change without notice, but all items offered are in stock at presstime. Photos are of the actual coins offered for sale, or representative coins in the case of type or special offers.

4. **GUARANTEE:** Any item not satisfactory for any reason may be returned within 15 days for an immediate cash refund or replacement (as you wish). No explanation is necessary, but one is often helpful if you request a replacement. United States coins are graded by the official A.N.A. universal grading system. All items are absolutely guaranteed genuine—this is a lifetime guarantee.

5. **CHARGES:** We accept Mastercard, Visa (BankAmericard) and American Express credit cards for all purchases. Please send us the information in raised print on your card if you charge your purchase. Do not send your card!

Telephone Service

Any item offered here may be reserved by telephoning us during business hours: Monday through Friday, 9 a.m. until 4:30 p.m. Our toll-free WATS number (outside California) is: (800) 421-4224. Other calls to: (213) 666-4595. Call collect for an order over \$200.

Words on Coins

What a fabulous hoard of new purchases we are bringing your way in this issue! Take a careful look through the following pages—you're sure to discover a host of coins you would like to add to your collection or investment group (the problem will probably be deciding among the many pieces you'd like to own!). Please make certain that you take advantage of our Second Choice service by listing as many second choices on the back of your order blank as possible. We hope you'll receive your first choice(s), of course, but the coin market is so active these days that we are having trouble replacing the coins we sell from our stock. Buy now; it looks as if prices will never be lower than they are today!

Selling your collection? We want to buy it! We really are having difficulty keeping our stock up to the level where it should be. So if you have been thinking of selling your collection, or some nice pieces from it, try us! Securely package your coins, mail them registered or insured, and we'll respond with our highest offer.

LAST CHANCE TO BE PART OF THE ANA SALE. That's right, within the next couple of weeks we will be closing consignments which will be included in the magnificent sale catalogue we are busy preparing for the upcoming ANA Convention auction, which we have been chosen to conduct this year. It should prove to be the event of the year, numismatically speaking, and we can't think of a better place to offer your high-quality rarities, superb type coins or possibly even unique specimens. What do you have? Why not contact us about the possibility of placing it in this great sale?

The ANA auction this year will be restricted to 3,000 lots of particularly fine quality coins and currency. Each lot is being specially prepared, and the limitation (for this sale only) will be that the lot must be "special." If you believe you have one or more pieces which are "just right" for this sale, call us on our toll-free WATS line and tell us about it; the total consignment must be at least \$2,000. Let Bob Korver, manager of our Auction Department, explain the advantages of selling through a Bowers & Ruddy Galleries auction and why you should place your rarities in our ANA auction! We believe the results will absolutely delight you. Let us prove it!

We also want to thank you for the wonderful way you've been responding to our various price lists. Evidently the truth (a well-kept secret at least from the rest of the collecting world) is escaping at last: Bowers & Ruddy Galleries *does* supply the finest buys in all of coinworld! New customers have been comparing the great coins we deliver, and their reasonable prices (considering the quality), and are abandoning other dealers in droves. Gosh, we don't have enough coins for everyone!

Repeating a Very Popular Special

Yes, for a third (and no doubt final) time we are offering you truly select, fully brilliant 1921 Lincoln cents from a fabulous hoard we purchased—a group of ten original rolls kept together from the time of issue. Only one grade remains: MS-63, Brilliant Uncirculated. But each coin is so nice that you would swear it's a full MS-65 (the truth is, we had a small number of fabulous pieces, which we called MS-65, so we called the "merely" beautiful ones MS-63!). Guaranteed to please—and we bet this coin is every bit as lovely as what most other sellers call "Gem BU." The price is very special, too! In stock at \$52 each, but—only for as long as our dwindling stock remains—you may own one for the special price (limit: 3 per customer) of just . . . 45.00 each

Essential Jewish Coins Reference

Just released by Attic Books is a *Guide to Ancient Jewish Coins* by David Hendin. It is a comprehensive, hardcover book of 122 descriptive pages and two hundred or so line engravings, with nine additional pages of photographic plates. The excellent line drawings show the details of those all-too-often crudely struck coins. While the pricing guide is useful and appreciated, some inconsistencies are noticed and should be taken, as the author wisely states, as retail approximations. Tables of legends and a bibliography conclude the volume. Highly recommended! Price per book . . . 13.50 postpaid

Investing In Rare Coins - 1978

It's almost discouraging to pick up the financial section of the newspaper these days. Recently I read that a highly placed government official considers an inflation rate of 7% to be "normal." This is all well and fine, but what about the millions of people in the United States who have money in savings accounts or pension accounts earning 5% or 6%? In terms of purchasing power, they are actually losing year after year, month after month.

And then there is the stock market trend. Up one day, down the next day, up the day after, and down the day after that — fluctuations, often sharp ones, are the *name of the game*. And, who but the experts can keep track of why Stock "X", the darling of the market five years ago, is now selling for one-tenth of its former price?

Then there is real estate. Certainly great profits have been made in this field, but what about ever-increasing taxes, liability insurance, and perhaps most important of all, picking a location that will actually be in demand a few years from now?

To all of this, rare coins offer an intelligent investment alternative. While it would be a rare money manager who would put 100% of his funds in any single area, including rare coins, more and more are considering coins to be a wise investment for a significant percentage of their portfolios. And, indeed, history has proved them right.

In my book, *High Profits From Rare Coin Investment*, I studied a typical portfolio of coins as compared to other investments dating from 1948. \$1,000 cash in 1948 has dwindled in purchasing power to about \$400 today. During the same time, \$1,000 invested in a 5% saving account would have yielded \$4,278 through 1977. This figure is a bit on the high side, for only recently have yields as high as 5% been available; decades ago, yields of 2% and 3% were common.

\$1,000 invested in the stocks comprising with Dow-Jones Industrial Averages, not including the

dividend reinvestment, would have yielded \$5,189 by the end of last year.

What about rare coins, would \$1,000 in rare coins have yielded \$3,000 profit, \$5,000 profit, or even a spectacular \$10,000 profit? Wrong, far wrong! Would you believe that \$1,000 invested in rare coins would have yielded \$64,742? Well, it did.

Judy Cahn, one of our account representatives, is holding one of our "grand format" catalogues. As a participant in our Collection/Investment Program you'll receive a free subscription to our catalogues as they are issued. And, you'll have the personal services of Judy Cahn each time you telephone or write. Judy has a broad knowledge of numismatics which encompasses coins of the world, United States coins, and paper money.

I have seen it happen with my own eyes and, even more important, I have helped many of our clients become wealthy at the same time. In the 1950s our firm pioneered the first monthly program whereby an investor wishing to spend \$50 per month, \$100 per month, or some other sum, could assemble a *portfolio* of choice and rare coins. Our Investment Department staff members were just as conscientious then as they are now; only top-grade select pieces were chosen. It might have been tempting to sell "promotional" coins, pieces with bigger margins, or to overprice the pieces — but we didn't do that. Why didn't we? The reasons were several . . .

First of all, our conscience guided us. We treated others as we, ourselves, would like to be treated. The results, years later, were super spectacular — values multiplied and then multiplied again! The record speaks for itself.

In 1963 I launched the first Investment Newsletter ever issued by a private numismatic firm, and since discontinued due to time pressure (but thoughts are now being given here at Bowers and Ruddy Galleries to starting it up again!). Coin after coin was studied in detail, and many market analyses were given. The results were widely quoted in the numismatic press. Pioneered at that time were such things as the first study ever on coin cycles and popularity trend fluctuations, discussions of underpriced coins based not upon computer comparisons of mintage figures (which anyone can do) but, rather, upon other subtle factors such as market demand, popularity considerations, existence of hoards, and other research data. There were no shortents taken.

The numismatic press is filled with all sorts of investment advice. Some of it, in my opinion, isn't worth the paper it is printed on. Other advisory reports are thinly disguised efforts to promote merchandise which has dubious investment potential. Merchandising often comes first with numismatic scholarship and true consideration for one's client coming a distant second. This, to my way of thinking, is sad.

Here at Bowers and Ruddy Galleries the customer has always come first. I realize that this is a trite saying and one which might raise some scepticism. No, we are not giving away coins free. We do make a profit albeit a nominal one. The difference is that we are satisfied with a nominal profit. The success of our firm, a company which has grown over the years to become the largest in numismatics to our knowledge, was not predicated upon a get-rich-quick philosophy but, rather, has been built on a quarter century of numismatic study and research, writing, scholarship, and transactions with tens of thousands of individual clients.

While the writings of myself and various Bowers and Ruddy Galleries staff members on the subject of investment have earned many accolades over the years, none please me more than the unsolicited and unexpected comment which I was delighted to read in the introduction to a book, *How You Can Make Big Profits Investing in Coins*, by Harry J. Forman. In his words:

"Anyone can make predictions, and if he does so in a field in which he is already well known, they are sure to be widely read. Moreover, by waiting until peoples' memories have been somewhat blurred, and then republishing only his successes,

he can often build up a rather good reputation for himself.

"In the numismatic field we have three kinds of forecasters. The first and commonest is a person who makes predictions simply as a promotional device to help sell whatever he has on hand. I don't say that in all, or even most cases, this involves a deliberate deception. On the contrary, the very fact that a person has invested his own money to purchase one or another item would indicate a certain amount of faith in its market potential. But, such predictions necessarily lack true discrimination and depend for their success, if not on luck, then on the progress of the market as a whole.

"A second type of forecaster is the non-professional numismatist who dabbles in speculation and writes books or articles on market trends. Such an individual is more serious in his selections and understands that there are always widespread differences in the potential of various issues and series. But for all that, his livelihood is not dependent on his predictions, and even should they fail he is still reimbursed by his royalties.

"The third and rarest type is a successful full-time dealer who forecasts not for promotional purposes, but simply to share his insights with the general investing public. My good friend, Q. David Bowers, is one such forecaster, having given much excellent investment advice. . . ."

By the early 1960s we were beginning to reap the fruits of our firm's earlier advice. Clients reported making large profits. Some of them made fortunes. Then, as it does in everyone's life, the time came to sell. Although they were under no obligation to do so and although this was not expected of them, we were delighted to find that many of our clients contacted us. By outright purchase and by auction large numbers of coins came back into our possession. This was a delight, for we found ourselves buying back the "cream of the crop," so to speak — select Uncirculated and Proof coins which were becoming increasingly difficult to find in the outside. At the same time many of our investors had a strong collecting interest as well. Our popular Collection/Investment Program was used not to specifically invest in coins but, rather, to build a meaningful collection within a given series over a period of time.

For example, for an Illinois manufacturer of toys and novelties, one of the leading executives in that field, we built a set of nickel five-cent pieces from 1866 to date, one of each date and mintmark variety in Uncirculated and Proof grade. For a California real estate executive we have been building over a period of years a collection of double eagles, one of each

variety from the first year of issue, 1850, to the last collectible year, 1932.

For a New Jersey citizen prominent in the music business we built an outstanding collection of United States Commemoratives, including the great gold rarities. For a customer in Mexico we assembled a display of United States gold Proof sets of the 19th Century. For an eastern client, another New Jerseyite, we built an outstanding collection of small cents including a superb Proof 1864-L. And, hundreds of other examples could be cited. Today the trend continues. For a prominent Bostonian we are assembling what will certainly be one of the finest collections of United States currency ever put together. An Illinois client has just received the last coin from us to complete his United States type coin collection of each and every major design in the finest possible condition. Now he plans to start a collection of pattern coins, or will it be currency? He is thinking about it. For an investment group in Las Vegas, Nevada, we are building what will be one of the nicest type sets ever put together — including gem examples of early silver and gold issues. Here, too, the list could go on and on . . .

Don Suter is one of three account representatives in our Collection/Investment Program. For many years he has worked with individual clients, pension funds, and others. From Bowers and Ruddy Galleries you get personal service. Each and every account "portfolio" is personally taken care of by Don Suter, Jim Jones, or Judy Cahn. Have a question about a price, grade, selection, or anything else? Ask! Write or call, and a detailed personal reply is yours. We believe that you, like many others over a long span of years, will find our Collection/Investment Program to be the ideal way to build a "treasure for the future."

If rare coins as an investment have crossed your mind, we invite you to consider seriously our Collection/Investment Program. If you are an investor then we believe you will be pleased with its success. While the past is no guarantee of the future in rare coins or in any other field, our track record is most impressive — and our investment staff — Don Suter,

Judy Cahn, and Jim Jones will do their very best for you! If you are a collector first and an investor second then one of our Collection/Investment Programs can enable you to build a select set of Morgan silver dollars, United States commemoratives, a display of design types of U.S. coins from 1793 to date, an exhibit of currency, a museum-quality collection of world crowns, or any other specialty.

In most instances you have the advantage of working from what I believe to be the world's largest and most comprehensive rare coin inventory. Constantly coming our way are collections large and small and other purchases, and you'll have first pick of these!

As a bonus you will receive free-of-charge a subscription to all of our publications. Coming your way regularly will be "grand format" auction catalogues, our informative *Rare Coin Review*, our monthly *Special Coin Letter* and other periodicals — publications which will form an impressive library on their own within a few years. Curiously enough, some of these publications in their own right have become good investments! We know that copies of our Stanislaw Herstl auction catalogue of a few years ago, publication issued at \$5, have traded for \$25 to \$50 each! Likewise, copies of our Fairfield Collection auction catalogue of last year, issued at \$10, have been in demand on the resale market at \$25 each or more. Then, too, there are other advantages . . . the financial reputation and strength of Bowers and Ruddy Galleries is unquestioned. We are members of the General Mills group of companies whose sales are over \$3 billion per year. While General Mills is often associated, rightfully so, with the food business, it is a diversified firm with a group of subsidiaries composed of leaders in their respective fields. Consider, for example, some of the other General Mills subsidiaries: H.E. Harris & Co., the world's largest stamp firm; Lionel Trains, leader in that field for many decades; Eddie Bauer, outfitter of camping supplies and expedition supplies; and many others, nearly sixty non-food firms of excellence in all!

Closer to home, the Bowers and Ruddy Galleries professional expertise and background are likewise unquestioned. Our founders have received virtually every major numismatic award including the Professional Numismatist Guild's Distinguished Service Award and Founder's Award (the latter honoring the outstanding professional numismatist of the year), awarded by the American Numismatic Association, the Numismatic Literary Guild, and other groups.

All of this will contribute to give you peace of mind.

LET US DO THE WORK FOR YOU

There are two ways you can buy coins. The first way is to subscribe to dozens of different numismatic publications, attend many different coin conventions every year, correspond with countless different dealers, read hundreds of price lists, compare prices, do research to verify authenticity, attend many coin auctions, and otherwise gather an in-depth knowledge of numismatics and the ever-changing numismatic market. This, of course, can be a full-time occupation in itself, as you know well if you have had to go through the time and trouble of returning coins which were not graded properly, if you have received "Sold Out" letters for coins that are no longer available from price lists, and so on. If you have several hours per day to devote to this it can be interesting and challenging. The trouble is that many successful professional and busy people will simply not have the time! However, they still have the desire to build a first-class collection of coins which will be a historical and numismatic treasure over the years.

Then there is another way, the Bowers and Ruddy Galleries way — through our highly successful Collection/Investment Program or our Custom Collection Program. We work hand-in-hand with you. Our staff and several dozen people take care of keeping abreast of market conditions. We are constantly on top of prices in the market both in America and Europe. Our research library of thousands of publications is constantly consulted. Information is obtained from our buyers who travel all over the world.

What about grading? *Photograde*, possibly the best-selling book on grading ever issued (adopted as an official grading standard by the American Numismatic Association), was written by one of our founders, James F. Ruddy (now retired from our firm). More recently, Q. David Bowers wrote the introduction to the American Numismatic Association *Official Grading Guide*.

For many years, careful and accurate grading has been a policy at Bowers and Ruddy Galleries. We believe in being conservative — and the fact that our business has grown to be the largest in the world proves that we have done the right thing.

What about authenticity? We are advisors to numismatic publications, government agencies, numismatic organizations on matters concerning authenticity. We have a fully staffed and fully equipped research department. Each and every coin you purchase from us is absolutely and unquestionably guaranteed — authentic for as long as you own it — no time limit, no ifs, and's or but's. No guarantee could be stronger or more explicit than that!

Each time you purchase a coin from us we keep the record of the price you paid and the date you acquired it. Any time you wish to verify your own records or be brought up-to-date on your collection our records are available for your use. In the instance of investment accounts, extremely large portfolios, and the like, we would be pleased to make available to you or your accountant a yearly estimate of the replacement cost of the coins you purchased from us. Our only charge is a nominal reimbursement for the staff time involved.

What do you have to do? We make it easy for you. When your coins arrive, check them (to be sure they represent the grade and value you expect and the type of coins which you believe fit your investment objectives) and put them in your albums or storage containers. As your collection grows it will be a truly beautiful display and an item you will be proud to own. If you wish to make purchases elsewhere in the coin market, this is perfectly fine with us. If you are enrolled in one of our programs, all we ask is that you let us know when you no longer require certain pieces so that we can delete them from your "want list." Often clients have found it interesting and enjoyable to supplement their Collection/Investment Program or Custom Collection Program by bidding in our auctions, order from our price lists, or otherwise acquiring pieces of interest.

ADVANTAGES OF OUR PROGRAMS

Our programs offer many advantages. You enjoy the prestige and satisfaction of doing business with one of the world's largest and most respected numismatic firms, a company which has handled untold millions of dollars worth of coins, including nearly every major rarity in the book; a firm of unquestioned financial reputation and integrity.

By means of our programs, you can build an important and meaningful group of coins by having our large and expert staff work closely with you. Either Don Suter, Jim Jones or Judy Calm will personally take care of your account. Not only will they send you coins regularly, they are also available to help you with any questions you may have with numismatic research, pricing structures, market trends, buying and selling thoughts, or anything else. And, they are backed up by the entire Bowers and Ruddy Galleries staff and resources!

Over the years our clients have found rare coins to be a wonderful hedge against inflation. In our opinion, based upon past performance, coins represent an outstanding investment with excellent potential for future price appreciation.

When you join one of our programs there are no service charges of any kind to pay. You pay just our regular competitive market prices for coins — sometimes even less (in the instances of quantity purchases where we pass a special buy on to you), but never more! There are no postage and handling charges, no advisory fees, no “extras” of any kind.

Also, you are under no obligation whatsoever when you join one of our programs. You sign no contract. If you are not 100% delighted with the coins you receive you can cancel your participation without notice at any time simply by discontinuing your payments — or if you are ordering on open account, simply by requesting us (no explanation is necessary) to discontinue shipment. Pay your account or return your latest shipment, and then we are all square.

By having no obligation on your part this gives us the incentive to perform well — or we will not continue to receive your business. In other words, we have your “command performance” to provide the quality and value you demand.

As noted, when you participate in our programs you have first pick of the largest and finest stock of selected and choice rare coins and paper money in the business. New collections come, estates come and other purchases are constantly being added to our inventory, so you will get first pick of many of the most desirable pieces. It's almost like having a brother in the coin business!

And, as also noted, you will receive a free subscription to our many periodical publications.

ADVANTAGES FOR US

These programs have two main advantages for us. In a way they are advantages for you, too! They are:

- 1) We are able to place directly many beautiful coins without the expense of “sold out” letters, credit problems, advertising preparation and listing, catalogue preparation, and so on — resulting in a significant savings for us. In a high-volume, low-margin-of-profit business, savings can be quite important.
- 2) Our main problem is buying coins, not selling them! By placing these coins with selected buyers such as yourself, we hope to have the opportunity to buy them back someday. There is no obligation whatever for you to sell your coins back to us. You can sell them wherever you please — the market place is free and competitive. However, it has been our happy experience that many, many collectors and investors who have purchased coins from us back in the 1950s and 1960s have kept us in mind — and we have bought their holdings or have sold them at

auction when they were later reoffered to us. Virtually without exception, to our knowledge, each seller has realized a substantial profit. So, by selling your coins today we hope you will keep us in mind in the future and that you will help us with our purchase requirements five, ten, or fifteen years from now.

HOW OUR PROGRAMS WORK

Each month (or other interval you choose) we will send a group of coins appropriate to the program in which you are interested. These coins will be individually packaged and will have a description of the piece, the grade, and the price.

While most of our clients prefer to send us regular monthly payments, our programs are very flexible and there is no requirement in this regard. For example, if the program in which you are interested has a minimum payment each time of \$100 and you feel you want to spend just \$50 per month on coins, then accumulate your payments for two months and send us \$100 each second month. Occasionally, for one reason or another, a client will wish to skip a month. This is perfectly fine. On the other hand, sometimes additional money becomes available and you may wish to send us a lump sum. Each program is personally supervised by Don Suter, Jim Jones or Judy Cahn with your specific needs in mind, so we will work with you in this regard. The relationship is an intensely personal one and Don, Jim and Judy are just a telephone call (via our toll-free line) or letter away!

Jim Jones of our Investment Department reviews price quotations from dozens of different sources to keep a constant pulse on the rare coin market. Jim, one of our account representatives, is as close as your telephone or mailbox.

If desired, so you can establish credit, we'll ship future purchases to you on open account. To do this, send appropriate financial references when you send your first payment.

As it is impossible to make each shipment come out precisely even each month (or other interval), there may be a small amount due. For example, if your invoice comes to \$104.00 and you have sent us \$100.00, we will let the \$4.00 balance due remain until next month and then it will be deducted from your next month's \$100 payment. There are no interest or carrying charges of any kind.

Here is our guarantee: We guarantee that you will find our grading to be accurate and the price paid to be reasonable. After receiving your coins you have fifteen (15) full days to consider the coins, examine them, have them appraised or evaluated by others, and to check them out in any other way you wish. If, for any reason, whatsoever, you are not 100% delighted, your money will be refunded in full as part of this guarantee. There is no red tape. In fact, no explanation is necessary. And, as noted earlier, there is an additional guarantee of authenticity which lasts forever, for as long as you own the coin.

In these few short pages I have covered a bit of our company history in the investment field and have answered a number of questions. I realize that you may have additional questions. If so, I invite you to write for our descriptive brochure *Rare Coins As An Investment*, which will be sent free and without obligation on your part. Or, use our toll-free line (800) 421-4224 to telephone our Investment Department. Don Suter, Jim Jones, or Judy Cahn would be happy to answer any questions you may have and fill you in on any details you wish to know. It is up to you to make the first contact. I am confident that what you will receive from us will be pleasing for you. Now you'll have to take the first step.

The following is a description of our various Collection Investment Programs and our Custom Collection Plan. Read it carefully and determine which is of greatest interest to you. For your convenience, an order blank and application are included at the end of this brochure.

Our *Special Coin Letter* this issue has been one-track on the subject of investment. As you know, it is usually devoted to a listing of coins for sale. The

reason for it being different this time? One reason is that our staff is busily at work on our new *Rare Coin Review No. 31* which will be a wonderful offering of choice and rare pieces. This will be in your hands as soon as it is ready, hopefully in about six weeks or so. The second reason is that the coin investment market is strong. As you probably know if you have been keeping up with the market place, there were certain weaknesses in the market during the 1975-1977 years. Despite this, I am proud to say, the coins studied in my *High Profits From Rare Coin Investment* book moved forward nicely, often against the general trend of the market! Be that as it may, right now the investment market seems to me to be quite favorable for you. Inflation continues to be rampant, worldwide problems still exist in many areas, the dollar is constantly devalued in terms of other currencies, the stock market continues to fluctuate, and, apparently, returns on many savings accounts and pension funds won't even equal the inflation rate, really a sad commentary. Coins do indeed provide an interesting alternative worthy of consideration!

If you had given us \$50,000 back in the early 1950s to invest for you, chances are you would be a millionaire today! Or, if you had spent \$1,000, chances are great that you would have coins worth \$20,000 or even far more in today's market. While the past, as noted, is no guarantee of the future, worldwide economic conditions being what they are, I believe the outlook for coins is bright. There is no better time than the present to consider rare coins carefully. In future years, if tradition holds, selected pieces such as we have been recommending will become scarcer and harder to find. Wouldn't it give you a comfortable and secure feeling to own a nice group of them?

Sincerely,

Q. David Bowers

Here Are The Programs We Offer:

IMPORTANT NOTE: While selected coins have been an excellent investment in the past, the past is no guarantee of the future—in coins or in any other investment. There is always a risk. However, we will do our best for you.

BASIC COLLECTION/INVESTMENT PROGRAM

This program consists of United States coins of various series. Over a period of time you will receive beautiful copper, nickel, silver, and gold (minimum monthly payment to receive gold: \$100) issues, commemoratives, and other pieces which have done well in the past. It is diversified over a wide range of dates, denominations, and mintmarks. Unless requested otherwise, from time to time we may send you duplicates. If you are undecided which program is for you, we recommend this one. Take your pick of the following amounts: Basic Program No. 1, \$50 per month; Basic Program No. 2, \$100 per month; Basic Program No. 3, \$250 per month; Basic Program No. 4, \$500 per month; Basic Program No. 5, \$1000 per month; Basic Program No. 6, \$2500 per month.

U.S. TYPE SET COLLECTION PLAN

For the busy collector or investor who wants to combine a beautiful type set of U.S. coins with a potentially excellent investment. Consists of major U.S. designs without duplication. We will provide display albums which will house your collection as it grows. 20th century issues will be in Uncirculated and Proof grades; 19th century issues will be Fine to Proof. One of our most popular programs, for it combines a beautiful collection with a potentially excellent investment situation. Choose one of the following: U.S. Type Set Plan No. TS-1, \$50 per month; TS-2, \$100 per month; TS-3, \$250 per month; TS-4, \$500 per month; TS-5, \$1000 per month; TS-6, \$2500 per month.

U.S. GOLD TYPE SET PROGRAM

A nice way to build a beautiful collection and potential investment in this popular field. We'll build for you a collection of the major design types. Depending on your budget you will want to select an option in each of the following categories: Condition Option A: All coins before 1834 in Extremely Fine or better grade, later issues Choice Uncirculated or Proof. Condition Option B: Coins will be in Very Fine to AU grades except 20th century issues which will be Uncirculated. Coverage Option C: Complete collection of types from 1795 to the 20th century, including rare types. Coverage Option D: Collection of popular types since 1834. Take your pick of these programs: U.S. Gold Type Set Program No. GT-3, \$250 per month; No. GT-4, \$500 per month; GT-5, \$1000 per month; GT-6, \$2500 per month; GT-7, \$5000 per month. As noted, be sure to specify Option A or B and Option C or D.

GOLD COIN PURCHASE PLAN

A numismatically-oriented (rather than bulk or bullion oriented) program under which we will custom-build for you a specialized collection of gold coins of your choice: quarter eagles from 1908 to 1929, half eagles from 1839 to 1908, \$20 pieces from 1907 to 1933, or whatever. Scarce and rare dates, which these collections will include, have sharply outperformed bullion-type coins over the years. Let us know what series you would like to have us build for you, and then pick one of the following programs: Gold Coin Purchase Plan No. 2-A, \$250 per month; No. 2-B, \$500 per month; No. 2-C, \$1000 per month; No. 2-D, \$2500 per month; No. 2-E, \$5000 per month.

PERSONAL SERVICE is yours with these programs. Jim Jones, Don Sater, or Judy Cahn will PERSONALLY take care of your portfolio. Have a question or special request? They are at your service! These programs are not made up in advance nor are they standard or pre-packaged. Your shipment will be personally made up especially for you each month, giving you first pick of important collections and other purchases.

World Coins Selection

The selections which follow represent mostly new stock, all accurately graded and competitively priced. The few old stock items listed here are close to, at, or below cost—to move them out quickly and pass on good buys to you.

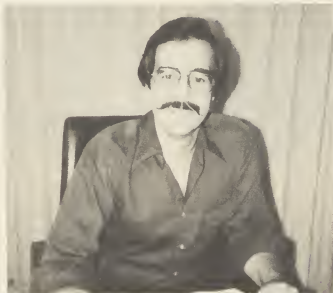

As always, choice high-grade material is very difficult to buy. It invariably sells quickly and then is more difficult to replace. This trend is unlikely to change as the number of collectors and investors is increasing and most are looking for high-quality items.

If you have been thinking about adding a few choice specimens to your collection or investment portfolio, the time to do so is now! In all probability the quality and number of available specimens will be lower and overall prices will be higher in the not-too-distant future.

Check the following list carefully, please. You may find something in your favorite area or you might decide that now is a good time to expand into another.

To avoid disappointment, please order early and list second and third (or more) choices as most coins are one of a kind. We hope you enjoy this offering. If there is an area or country which you would like to see offered in greater depth on our future lists, by all means let us know.

Napoleonic Era Coinage

Of all world coin collecting categories, the one having to do with Napoleonic coinage is certainly among the most popular. The coins of France and other countries under Napoleonic influence are widely collected and the excellent book on the subject, Repertoire des Monnaies Napoléoniennes by DeMey and Poindessault, has helped make the collecting of this series much easier and more interesting. The volume lists by date all (and illustrates most) pertinent coins issued during this period and has prices, now obsolete but still helpful in a relative way, in several grades. For collectors interested in this field, we would be happy to try to locate the volume.

"Your Friends in the Rare Coin Business"

Special Coin Letter

Bruce Lorich, Editor
Photos by Jim Clutterbuck

A frequent publication by Bowers & Ruddy Galleries, America's largest dealer in rare coins of the United States and many other countries. The *Special Coin Letter* emphasizes the changing market, reflects popularity, and offers special buys selected from our vast stock. Our comprehensive, illustrated catalogue (of United States coins), the *Rare Coin Review*, is issued approximately three times a year; a sample copy of our most recent issue is available for \$3 via surface mail, or for \$5 via First Class mail or Air Mail to foreign countries (the cover price, without postage, is normally \$5).

A subscription to our next 8 full-sized catalogues (both *Rare Coin Reviews* and our frequent auction catalogues) plus lists of prices realized for included auctions and the regular *Special Coin Letter* costs just \$15 for any address via surface mail (not recommended for overseas); or \$25 via First Class mail to U.S., Canadian or Mexican addresses (strongly recommended for residents of Hawaii and Alaska); or \$37 via Air Mail to any other foreign address. First Class or Air Mail is recommended for those interested in bidding in our auctions because surface delivery means time that the catalogue will reach you after the deadline for submitting bids.

Unusual Vatican City Hoards!

You've seen a number of hoards offered in our past *Special Coin Letters* and *Rare Coin Reviews*—for this is a special interest of ours. Many concerned ancient coins. Rarely located are hoards of better-quality, more modern coins. Such a hoard came to light recently, and we bought some superb pieces from it for you! These came from Rome:

Vatican City 5 Lire in Silver

The first year of issue of this type is the piece we are offering here—1939, Y-28. Pope Pius XII. His bust on the obverse; on the reverse a saint (St. Peter?) guides a boat. Current catalogue value is \$25 in Unc. We offer a BU specimen at one-third catalogue! That's right, three coins for the price of one! Three BUs for \$25; or you can buy an investor's roll of 50 BUs for 375.00

Vatican City 100 Lire in Gold

These pieces of 1933-1934 (F-284; Y-19) were struck to commemorate the Holy Year, with both dates appearing on each coin. Pope Pius XI is portrayed on the obverse, and a figure of Christ adorns the reverse. Auction records for these exist surpassing \$300, but we offer a fully BU specimen from this astounding hoard for a price which beats that! Slightly more than 23,000 struck. How many remain this nice? You need to act fast and capture one of these for just 225.00

Mint State 3rd Century Antoniniani —Offered Once Again!—

Having completely sold out of the high-grade Antoniniani we offered about a year ago, we went out and managed to locate an even finer tiny hoard—each piece in Mint State. All struck under Trebonianus Gallus, Roman emperor during the years A.D. 251-253, these silver coins are absolutely the last remaining pieces from our source. We recommend a quickly placed order!

Emperor Gallus was chosen from the ranks of the Roman Army—a customary tradition during the era when the Empire was crumbling. His coin is a fitting reminder of a style of government which, alas, has repeated itself again and again throughout human history.

The price is very appealing! Each coin was minted at Antioch, and each is as struck—Mint State—a remarkable condition for a coin so ancient. Some light patches of verdigris and a little porosity are to be expected, especially on pieces from the Antioch mint. The remaining lustre outshines these minor detractions and we're sure you'll be delighted by the piece we send you!

Just a few available at 39.50 each

Our Sasanian Hoard —Specials from Ancient Egypt!—

Ardent fire-worshippers, the ancient Sasanians were the conquerors of Parthia—and one king, Xusro II, occupied Egypt in the year A.D. 616. It is one of his coins we offer you here! Each is nearly 1500 years old and a very handsome example of this period's coinage. While our supply lasts (but a few pieces available from a small hoard), we offer a Xusro II (A.D. 591-628) silver Drachm, grading EF-AU, for only 39.50

Dear Collector Friend,

U.S. Coin Specials

Rare Hoard of Pristine 1921 Cents

1921 Lincoln cent in very attractive MS-63, Brilliant Uncirculated, grade. Not reddish Unc. but fully brilliant! About a year ago we were most fortunate in purchasing *ten original rolls* of these. We had never heard or seen of any such hoard, but one day it walked in the door! We paid a large price for the group, to buy it intact, for we wanted to keep all of the coins together. There was a romantic, touching history to these pieces: all had been purchased in the year of issue by the seller's mother, who advised him to hold onto these for half a century. Well, he lived the half century and sold his mother's thoughtful gift for enough to live comfortably for quite a while—a nice retirement gift from a mother whose insight was extraordinary (for almost no one saved original rolls back in the 1920s). We quickly divided the 500 original pieces into two groups—those grading MS-65 and those grading MS-63. All were lovely and, as mentioned above, fully brilliant. So it wasn't easy to divide them up. The MS-65s have all been sold, and most of the MS-63s, leaving us with a small group of attractive pieces. Finding such early, fully brilliant Lincolns is a relatively rare occurrence—we suggest taking advantage of it! We offer these pieces (while they last!) at the following very special prices: MS-63, Brilliant Uncirculated, Regularly \$45.00 each. Special at just 39.00
Three for 109.00
Ten for 345.00
Roll of 50 (one available) for 1595.00

Select Sets of Texas Commemoratives

1938-PDS Texas commemorative silver half dollars. One from each of the three issuing mints: Philadelphia, Denver, and San Francisco. *Lowest mintage set* in the Texas series, with just 3,775 complete sets produced. Delightful commemorative design showing an American eagle and the Lone Star on the obverse, an allegorical representation of Victory between portraits of founding heroes Sam Houston and Stephen Austin on the reverse. Popular and desirable in high grade—which is precisely what you'll receive if you order either of these specials:
MS-63, Brilliant Uncirculated, set, Regularly \$395. Special at 350.00
MS-65, Brilliant Uncirculated, set, Regularly \$435. Special at 395.00

San Diego, California, Commemorative Special

1935-S San Diego commemorative silver half dollar. A true western 50 cent piece made at a western mint. Interesting and a bit unusual. Struck in honor of the California-Pacific Exposition. Appropriately, the obverse bears a design featuring a symbolic representation of California. On the reverse are depicted the observation tower and the State of California building—two edifices of the exposition. We've long considered this one of the most aesthetic of the commemorative designs. Buy a nice one at a reasonable price! We just purchased *two pristine original rolls* and offer them singly as follows:
MS-65, BU. Regularly \$53. Special at 50.00

Special Coin Letter

Bruce Lorch, Editor

A frequent publication of Bowers & Ruddy Galleries, America's largest dealer in rare coins of the United States. The *Special Coin Letter* emphasizes the changing market and offers special buys selected from our vast stock. Our comprehensive, illustrated catalogue, the *Rare Coin Review*, is issued approximately three times a year; a sample copy of our most recent issue is available for \$3 via surface mail, or we will send you a copy by First Class mail for just \$5 (the cover price, without postage, is \$5).

A subscription to our next 8 full-size catalogues (both *Rare Coin Reviews* and our frequent auction catalogues) plus lists of prices realized for included auctions and the monthly *Special Coin Letter* costs just: \$15 for any address via surface mail (not recommended for overseas); \$25 via First Class mail to U. S., Canadian or Mexican addresses (strongly recommended for residents of Hawaii and Alaska); \$37 via Air Mail to any other foreign address. First Class or Air Mail is recommended for those interested in bidding in our auctions because surface delivery sometimes means that the catalogue will reach you after the deadline for submitting bids.

Terms of Sale & Guarantee

1. Enclose full remittance with order unless credit has been established. A prompt cash refund will be given for any part of an order not filled.

2. Add \$1.50 to all orders under \$100 to cover postage and handling. All other orders are sent postpaid and insured at no charge. California residents, please add 6% state sales tax or furnish proof of resale permit.

3. As many items listed are one of a kind in our stock, alternate choices will be appreciated and will not be used unless the first item(s) requested has been sold. If you are ordering for a type set, just put "same type" as your second choice and we will substitute a coin of equal or higher grade and value if the first item requested has been sold subject to your approval, as always. Title to all items remains with Bowers & Ruddy Galleries, Inc., until payment in full has been received. All items are subject to prior sale or price change without notice, but all items offered are in stock at presstime. Photos are of the actual coins offered for sale, or representative coins in the case of type or special offers.

4. **GUARANTEE:** Any item not satisfactory for any reason may be returned within 15 days for an immediate cash refund or replacement (as you wish). No explanation is necessary—but one is often helpful if you request a replacement. United States coins are graded by the official A.N.A. numerical grading system. All items are absolutely guaranteed genuine—this is a lifetime guarantee.

5. **CHARGES:** We accept Mastercharge, Visa (BankAmericard) and American Express credit cards for all purchases. Please send us the information in raised print on your card if you charge your purchase. Do not send your card!

Words on Coins

This may go down in history as the issue of fabulous hoards! Check through the following pages of fine United States coins for sale and you'll soon discover what we mean. There are hoards in a variety of metals and denominations—just the thing for the quality-minded collector or investor. We particularly recommend buying something from one or more of these hoards, for one simple reason: the quality is superb! Original pristine hoards such as these offer quality as it is seldom found elsewhere. In each case, the coins have not been traded or otherwise touched, so their state of preservation is wonderful. Send for a sample and find out for yourself what we're talking about!

Specials are again offered in this issue for the first time in several months. Last year, as our regular readers know, we featured—month after month—a tremendous variety of specially priced offers on United States coins and currency, with an occasional token or obsolete bank bill added to remind collectors that price isn't necessarily linked to value (many tokens and obsoletes are rare but not expensive—as is true in the U. S. series in the case of "sleepers"). But the market in recent months has been so active that we have had difficulty maintaining our stock in a number of areas, making it almost impossible to come up with interesting specials. That has all changed now, though, thanks to some very fortunate purchases. These may not last too long, so we hope you will act *right now* and take advantage of this situation!

The demand for high-quality coins is almost frantic these days, no matter where you search for them. In our efforts to keep well stocked in the kinds of coins our customers want most, we have attended many shows in California. We always have. Recently, however, the supply of choice coins has nearly dried up in the golden state, forcing us to travel farther to locate what we need. We just returned from the Metropolitan Washington, D. C., show—and, believe me, it was super active! Dealers were fighting for coins of really high quality, and almost nothing was available in any quantity—a fact you might consider when contemplating a purchase from one of the hoards listed in these pages. Rare coins aren't getting less rare. And if we can believe the diverse commentary—letters, editorials, reports—in such publications as *The Wall Street Journal*, the coming year's inflation may well make today's coin prices look like unbelievable bargains this time next year.

We look forward to receiving your order—and hope we can still fill it by the time it reaches us!

**Popular and Scarce
1892-0 Morgan \$1**

1892-0 Morgan silver dollar. One of the scarce dates from this romantic southern mint! Not often does such an offering as this appear—and when it does a sellout usually occurs. So order promptly, please, to avoid disappointment. The 1979 *Guide Book* price for an MS-60 of this date is \$200. Wholesale for an MS-65 (*Coin Dealer Newsletter* price) has been roughly twice that amount for many months. Now here's a real special: MS-63, BU, average strike. Regularly \$195. Special if you order now at just \$175.00 MS-63, BU, above-average strike. The preceding piece is pleasing, but this one's even nicer! Regularly \$295. Special at \$275.00

Super Special on Indian Cent Proofs!

Indian head cent in Proof, date of our choice (will probably be from the 1890s or first decade of the 20th century). Very decent-looking coins, which we conservatively grade Proof-60. Toned or brilliant, as stock remains (we will honor your request as long as we have either brilliant or toned pieces in stock, as you prefer). We doubt if you'll find an unimpaired Proof anywhere at a comparable price: Proof-60, Regularly \$89, Special at \$79.00

Original Rolls of Early Lincoln Cents

1932 and 1933 Lincoln cents. We just purchased two original pristine rolls of these, one of each date. Not often encountered anymore, and this is the best way to purchase high-quality coppers, for they retain all of their original brilliance. We hope you'll take advantage of this special offer!

1932 MS-63, BU, special at \$14.00
MS-65, BU, also on special at \$22.00
1933 MS-63, BU, special at \$15.00
MS-65, BU, also on special at \$21.00

One of each of the above at the following very special prices: MS-63, BU \$25.00; MS-65, Brilliant Uncirculated \$39.00

**Superb
Proof Jefferson Nickel**

1942 Type 1 Jefferson nickel. Type without the large "P" over the dome on the reverse. Just 29,000 such Proofs were coined, and relatively few remain as fine as the specimen we're offering you here. Proof-67, brilliant. About as fine as exists, and virtually as struck. Check this price, which is the same as for an average Proof in the new, 1979 *Guide Book*: Brilliant Proof-67, Special at \$22.50

1885-0 "Belly Button" Morgan Dollar

1885-0 Morgan silver dollar, the very unusual die variety (listed as VAM-6) with a depression right smack dab in the middle of the eagle's belly, producing what looks for all the world like a belly button, hence the moniker. Seldom available, and we offer you a really fine one for a most reasonable price: MS-63, BU, Special (order quick!) at \$29.00

SPECIALISTS ON OUR STAFF

If you are calling to place an order, please ask our receptionist (Christina Ozburn) for either the U. S. Order Department or the World Coins Department. You may call us toll free on our WATS line at (800) 421-4224. Or call collect within California (station to station, please) for an order over \$200 at (213) 466-4595.

Specific questions (not orders) should be directed to the appropriate staff member, as follows: United States Coins: Richard Kosta, John Murbach, Jim Jones or Bruce Lorch; World Coins: Frank Draskovic; Ancient Coins: Dr. Paul Ryneanson; Coin Investment: Don Suter or Judy Cahn; Coin Auctions: Bob Korver, Kent Loose or Marti Korver.

Fabulous, Sharply Struck 1950-D Nickels

1950-D Jefferson nickel. One of the really famous modern United States coins—even among noncollectors. We have a great offer for you here, whether you collect Jeffersons by date and mint, or are simply looking for a first-rate Jefferson nickel for your type set. These come from a recently made purchase of two original pristine rolls of these nickels, obtained from an investor who picked the two best rolls he could locate and salted them away back in 1964. Back then, he paid a premium to get sharply struck, fully lustrous pieces—evidently he had foresight into today's demands for the finest pieces (remember that relatively few people were truly quality-conscious then). Well, we today reap the real benefit, for these are still inexpensive. Consider one of these—or, better yet, order multiples (sorry, no extra discount: prices couldn't be much lower or we'd go broke):

MS-65, BU, above-average strike	15.00
MS-65, BU, full steps	22.50

Beautiful, Original 1937 Buffalo Nickels

1937 Buffalo nickel. Incredibly enough, we just recently purchased a *pristine original roll* of these, too! (It seems this is "the issue of original hoards," as you've discovered if you've been reading all of our descriptions here.) A choice of two lovely coins in two price categories:

MS-65, BU, special at	14.00
MS-67, BU, also on special at	19.00

Indian Head \$10 Gold Piece

1926 or 1932 Indian head \$10 gold piece, or eagle. The lovely and very popular design originally created by Augustus Saint-Gaudens at the behest of President Teddy Roosevelt, who wished to improve the quality of United States coins, especially our gold. Wholesale type prices are steadily advancing, and this may well be the last time we will be able to offer you an Indian ten in this grade at the same low price. Consider this offer:

MS-63, Brilliant Uncirculated	365.00
-------------------------------	--------

Historical New Jersey Coppers

New Jersey colonial coppers, or "cents." These were all minted about 1787, it is thought by various minters in several towns. Interesting, historical, and inexpensive! Consider adding just one piece to your collection. We might add that the last time we ran a special on these (many months ago) we ran out in just three days! Now we have again replenished our supply with a small number. Hope you'll order one for historic interest (after all, that's what started coin collecting in the first place)! Check these low prices:

VG-8, Regularly \$35, now just	32.00
Fine-12, Regularly \$45, now just	40.00

Low-Mintage Proof Seated Liberty Dime

1860 to 1891 (excluding 1873 and 1874 arrows) seated Liberty dime in Proof. A gorgeous way to illustrate this type in your collection! Check your *Guide Book* and you'll discover that the Proof mintages during those years were all quite low. The average was about 600 pieces a year, with the highest (and it isn't "high" at all) being 1,355 pieces in 1880. Date of our choice, though we will honor your request for a specific date if we have it in stock. Brilliant or toned, again honoring your choice whenever possible. Two special categories to choose from:

Proof-60, Regularly \$235, special at	215.00
Proof-63, Regularly \$299, special at	285.00

Indian Cent Pattern Dirt Cheap!

1859 Indian head cent pattern. Judd-228, a copper-nickel piece with a regular 1859 obverse coupled to a regular 1860 reverse. Much scarcer than a regular-issue 1859 cent, but dirt cheap by comparison! (A regular 1859 cent in MS-63 costs \$495, and in MS-65 one costs \$675.) The last time we made this offer, we sold out immediately, so order fast if you want one. Two pleasing grades to choose from:

MS-63, Brilliant Uncirculated	395.00
MS-65, Brilliant Uncirculated	495.00

Special on the "Hot" Double Eagle!

Saint-Gaudens \$20 gold piece, or double eagle.

This type is really hot right now—we are having a difficult time stocking high-quality pieces. Or rather buying new ones. We do have a nice stock, and will take a chance that

we'll be able to buy more once these are gone. We want to pass a nice buy along to you, our valued customers, so we're knocking our price down to an extremely tempting level. Date of our choice, 1909 to 1928. Super grade! MS-65, BU. Really nice specimens, with a minimum of light abrasions, and with full blazing mint lustre. Look at this super-low price:
MS-65, BU. Regularly \$425, special at \$395.00

Silver Rolls—Early and Late Dates

Silver rolls! Everybody seems to want these, and—luckily enough—we happened to buy a small group of them some months back. They're in stock now and ready to trade hands. These, the rolls listed here, have been steadily advancing in price, wholesale and retail, in recent weeks—more rapidly than usual, so maybe someone knows something about this area of coin investing we don't! Seriously, select rolls of such silver coins have generally performed well over the years, and if you have extra cash we recommend putting some of it into these. The following offers are

virtually at wholesale levels (we'd rather wholesale them to you than to another dealer, as per our longstanding policy). Please list a few second choices—we have just one or two of each.

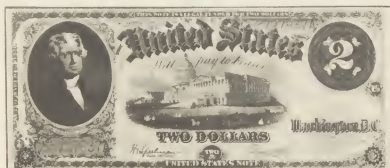

1948-S 10c, MS-63, BU	175.00
1959-25c, MS-65, BU	55.00

COINS OF THE WORLD

Welcome to our current offering of fine coins of the world. We would like very much to thank all the collectors and dealers who helped to make last month's world coin price list (SCL Vol. 8, No. 4) our most successful in years.

In case readers are wondering what their fellow numismatists are buying these days, we can tell you that just about everything in high grade is selling. Specifically, all foreign gold, choice crowns of the entire world, early European talers and better minors and ancient coins did very well and there seems to be strong demand in these areas.

In this present offering, you'll find more of the same along with a fine selection of higher grade world minor coins. Highlighting our ancient section is a 1/2 stater in electrum of Lydia, one of the earliest and most important coins

of antiquity. Should you like to discuss a specific matter relating to coins of the ancient world, contact Dr. Paul Rynearson, our expert in classical numismatics. The best time to reach him by phone is every Wednesday between 9 a.m. and 5 p.m. All other inquiries regarding general world numismatics should be directed to the foreign department. Ms. Janet Born-Connonly, our able assistant, and "yours truly" will do all we can to help.

Your catalogueur,

Beautiful U.S. Proof Sets Just In!

Superb 1880-S Morgan Dollar!

Put Your Two Cents In (Your Collection)

We were mighty busy at the ANA convention this year looking for really superb Proof sets—those minted from 1936 through 1942. Earlier sets have risen a lot in value in recent years, and the later sets (1950 onward) are extremely popular and inexpensive. But we feel that these sets of the "middle years" are a bit undervalued. Hence this offer! Choose here from a range of dates—and expect the finest, because that's what these sets represent. Either the Proof-65 or the Proof-67 will be sure to please you! Place your order right away these will undoubtedly sell quickly:

1936 Proof-65, brilliant	3450.00
1937 Proof-65, brilliant	1895.00
1937 Proof-67, brilliant	2150.00
1938 Proof-65, brilliant	725.00
1939 Proof-65, brilliant	595.00
1939 Proof-67, brilliant	659.00
1940 Proof-65, brilliant	409.00
1940 Proof-67, brilliant	479.00
1941 Proof-65, brilliant	395.00
1941 Proof-67, brilliant	450.00
1942 Proof-65, brilliant	445.00
1942 Proof-67, brilliant	535.00

1880-S Morgan silver dollar. One of the most plentiful dates in mint state, but super-desirable nonetheless because of the superb appearance. You'll love owning one of these—whether your collection is a type set in need of a Morgan dollar, or whether you collect Morgan dates and mints in only the finest grade. The pieces offered here came from two absolutely magnificent rolls which had been put away by an especially astute investor years ago (he was astute because, when he saved them, almost nobody recognized the potential value of truly superb silver dollars). We recommend buying one of these, for each is as nice a dollar as you are likely to find. MS-67, BU. Our best! Regularly \$39, special at 35.00 each

Genuine American 2c piece, as coined 1864 through 1873. An interesting coin which very few noncollectors have heard of, let alone seen or held. It was the first United States coin which bore the legend IN GOD WE TRUST, a statement arising out of the terribly bloody Civil War—still in progress when the first 2c pieces were being struck. A definite must for the historically minded collector! Dirt cheap, too! How many large coins in mint state can you still buy for these prices?

MS-60, brown Unc. Regularly \$109, now at the lower price of only	105.00
MS-63, brown Uncirculated. Regularly \$129, reduced to	125.00

Special Coin Letter

Bruce Lorch, Editor

A frequent publication of Bowers and Ruddy Galleries, America's largest dealer in rare coins of the United States. The Special Coin Letter emphasizes the changing market and offers special buys selected from our vast stock. Our comprehensive, illustrated catalogue, the Rare Coin Review, is issued approximately three times a year, a sample copy of our most recent issue is available for \$3 via surface mail, or we will send you a copy by First Class mail for just \$5 (the cover price, without postage, is \$5).

A subscription to our next 8 full-size catalogues (both Rare Coin Reviews and our frequent auction catalogues) plus lists of prices realized for included auctions and the monthly Special Coin Letter costs just \$15 for any address via surface mail (not recommended for overseas), \$25 via First Class mail to U.S., Canadian or Mexican addresses (strongly recommended for residents of Hawaii and Alaska), \$37 via Air Mail is recommended for those interested in bidding in our auctions because surface delivery sometimes means that the catalogue will reach you after the deadline for submitting bids.

Terms of Sale and Guarantee

1. Enclose full remittance with order unless credit has been established. A prompt cash refund will be given for any part of an order not filled.

2. Add \$1.50 to all orders under \$100 to cover postage and handling. All other orders are sent postpaid and insured at no charge. California residents, please add 6% state sales tax or furnish proof of resale permit.

3. As many items listed are one of a kind in our stock, alternate choices will be appreciated—and will not be used unless the first item(s) requested has been sold. If you are ordering for a type set, just put "same type" as your second choice and we will substitute a coin of equal or higher grade and value if the first item requested has been sold—subject to your approval, as always. Title to all items remains with Bowers and Ruddy Galleries until payment in full has been received. All items are subject to prior sale or price change without notice, but all items offered are in stock at presstime. Photos are of the actual coins offered for sale, or representative coins in the case of type or special offers.

4. **GUARANTEE.** Any item not satisfactory for any reason may be returned within 15 days for an immediate cash refund or replacement (as you wish). No explanation is necessary—but one is often helpful if you request a replacement. United States coins are graded by the official A.N.A. numerical grading system. All items are absolutely guaranteed genuine—this is a lifetime guarantee.

5. **CHARGES.** We accept Mastercharge, Visa (Bank Americard) and American Express credit cards for all purchases. Please send us the information in raised print on your card if you charge your purchase. Do not send your card!

Telephone Service

Any item offered here may be reserved by telephoning us during business hours. Monday through Friday, 9 a.m. until 4:30 p.m. Our toll free WATS number (outside of California) is (800) 421-4224. Other calls inside California to (213) 466-4595. Call collect for an order over \$200.

Words on Coins

A lot has been said about rare coin investment and the people who deal in coins. It's an interesting business, and in it will be found all sorts of people. Some, like us, enjoy excellent reputations built over a long period of time. Others are less well thought of, to say the least. Out of this dichotomy has arisen a well-known maxim: "Know your dealer." For the buyer, a most important consideration is maintaining a rapport with one or more dealers—for anyone in any business is obviously eager to have a steady customer and accordingly gives better and better service simply because the customer becomes more familiar. That's why, once you get to know your dealer, you should stick with him.

All this having been said, I would like to share with my readers an amusing poem borrowed from the March 1896 issue of *The Numismatist*. It indicates what is probably the single most important function a dealer provides—that invaluable link between seller and buyer, resulting in the building of a collection. This verse was penned by A. C. Heaton and follows verbatim:

"O FOR THE RARITY

An eager coin collector and a dealer chanced to meet
While waiting for a cable car upon a city street.
Why, said the former did you bid not get the cent you sold
To Skinfint for a lower price, as I have since been told?
Why, said the latter, did you get a discount on the dime
To sell another in the trade? You have a cheek sublime
You are a double dealing fraud, the hot collector cried,
A liar and a swindler and a perfect hog beside.
You over rate your pieces and you all your patrons fleece
And treat them when they trust you as you would a flock of geese
At this the dealer answered, You're a scoundrel and a fool
You know no more of values than a little boy at school
You change the pieces sent you and for months you never pay
And circulate such falsehoods as will drive my trade away
Ah ha, said the collector, of this foulness you'll repent,
My duplicate half dollar '96 will now be sent
Straight to another dealer and you'll never have a chance
To buy it for your customer at that proposed advance.
And I have found you out in time, the dealer made reply,
The 1802 half dime you need I chanced today to buy
And Dumps, who badly wanted it, shall have it now instead.
What, by the way, was I to be for that half dollar bid?
Well, murmured the collector, I forgot the price I made
If you've the half dime with you, we perhaps can make a trade
Yes, it is quite a decent piece, but, really, I would lose
By the exchange. Oh nonsense, said the dealer, I'd refuse
To give your old half dollar any worth akin to this.
Come, it is now or never, said the other, will you miss?
Well, seeing you're a friend of mine, the dealer said, I think
We'll make the trade. The customer responded, Have a drink
And then, for full a month or more, each man was heard to say
The other was a gentleman and trustful every way.

A Colonial Coin with a Real Story!

1820 North West Company brass token. We first offered pieces from a hoard we luckily obtained in our last *Rare Coin Review* (number 31 on page 11), and have nearly sold out. These came to us from a treasure hunter in Oregon who located them in an Indian burial mound somewhere in the Columbia River Valley, which is where most of these odd and fascinating pieces have been found. Your editor told the story of this Umpqua River Hoard in the August issue of *Treasure Magazine*, and it is a good tale which we recommend reading. In brief, this most unusual hoard consisted of 22 pieces minted in England and brought overland to the West Coast during the 1820s for trading with the woodland Indian tribe known as the Umpquas. The object of trade was the beaver, so naturally the likeness of one appears on this coin (strictly speaking, token). The Indians, though they had no previous form of man-made money, turned the trading company's tokens into symbols of wealth, proudly wearing them around their necks (hence the holes in all but one known specimen) and eventually taking them to their graves. Lots of romance and history—and a most unusual opportunity to own a hoard coin. Three grades to choose from.

Glittering Proof Barber Half Dollar

Barber half dollar—date of our choice between 1892 and 1915. This coin seems to typify the late 19th century, particularly the so-called Gay 90s, with its stately rendition of Miss Liberty and its regal eagle. The most dramatic representation of this design type is we feel a Proof—63, attractively toned or brilliant (as you prefer, but please allow us to substitute one or the other if our stock becomes depleted). Regularly priced at \$795, this lovely coin is on special this month for **750.00**

Magnificent Mercuries!

Among coins of the 20th century, few are lovelier or more popularly collected than the Mercury head dime designed by sculptor-muscleman Adolph A. Weinman. Prices have been ascending apace, too, indicating that this series is continuing to gain in the public's favor. This month we offer you one of the Denver Mint issues of the late thirties, in two price categories representing two magnificent grades 1937-D dime, your choice

"Oddball" Mintmarked Jefferson Nickel

1944-S Jefferson nickel with a severe die crack directly through the mintmark, producing what has been nicknamed the *dollar-sign* nickel. These have been popular among our customers for years, and we are happy to offer them once again. MS-65, Brilliant Uncirculated. Only 10.00 each

Lovely 1881-S Morgan Dollars

1881-S Morgan silver dollar. Like the 1880-S offered elsewhere in these pages, the 1881-S dollar frequently comes in superb shape. And the coins offered here are just that! From three old-time rolls just bought, we present the following grades to choose from:

MS-65, BU Regularly \$29, now	25.00 each

Specially Priced Scarce Peace Dollars — 1928-S and 1935-S —

Two of the most popular later date Peace dollars are the 1928-S and the 1935-S issues. Both are pretty scarce in nice mint state condition—and that's exactly what we're offering you here. Consider these unbeatable prices:

1928-S MS-63, BU (very attractive!) Regularly \$185, on special at	179.00
1935-S MS-65, BU (normally our best grade for a Peace dollar). Regularly \$335, super-special priced at	319.00

Scarce 1888-S Morgan Dollar

1888-S Morgan silver dollar. One of the scarce ones from the late 1880s—available here at a savings. Seems to be rising in price all the time, too. Current (1979) red book estimate for an MS-60 coin is \$150, but the *Coin Dealer Newsletter* (weekly wholesale publication) has listed this issue at approximately that price for the same grade, and lists an MS-65 specimen at well over \$200. Here's your chance to "buy in right": MS-65, BU, regularly \$249, for a special 235.00

COINS OF THE WORLD

GOLD COINS

Welcome to the World Coin section of our current SCL. We have quite a diverse selection of interesting material offered, including a good portion of our ANA new purchases (the balance will appear in our next list) A fine group of better world gold, top quality crowns and talers, some very important ancient gold and silver coins and a fascinating and very beautiful selection of ancient Greek pottery highlight the present list. We hope you will find something to your liking and we look forward to your order.

Speaking of orders, I'd like to take this opportunity to introduce you to Ms. Candace Kennedy, our new assistant here in the foreign department. Candy will be happy to help you with your orders and inquiries and I'm sure you'll enjoy speaking with her. And now—here are the coins.

Ancient Coins

It is with great pleasure that we offer such a wide selection of ancient coins and antiquities in this issue of the *Special Coin Letter*. The one common trait of this material is the one most collectors are searching for—quality. The overall preservation of the following offers is certain to please the fussiest collector, and we feel they should enjoy future growth/appreciation. All should remember that the center of the ancient coin market is Switzerland; with the ascending Swiss Franc and the declining U.S. dollar, ancients have more than held their value.

Year End Specials!

Super Gold Sovereigns!

An unusual special for the American collector—but one which we highly recommend. We just bought a hoard of hundreds of English sovereigns, out of which we "cherry picked" the most lustrous, mark-free coins. Choose either a gold sovereign minted by King Edward VII (date of our choice, 1902 to 1910) grading lustrous AU or a Choice BU 1925 sovereign minted by King George V (who reigned from 1910 to 1936). Either type for only 85.00

Fractional Currency Shield

Gray fractional currency shield measuring 20 by 23 inches. Bright condition, without the usually seen water stains—which most such shields exhibit because at one time they were stored in the basement of a government building which flooded. This one must have been near the top of the pile! Issued in 1866 and 1867, fractional currency shields are today very scarce in such a fine state of preservation. This specimen is in a contemporary frame and can be yours for 3995.00

Yet a Second Quality Shield!

Another very nice gray fractional currency shield. Measures 19 1/2 by 23 inches. Minor water staining (see explanation in the previous description), and one or two notes show some minor fading. Overall, though, the shield must rank among the top 50 percent of those still in existence. In a contemporary frame. Available for 3250.00

A Final Shield

Believe it or not, we have a *third* fractional currency shield in stock. Gray, measuring 20 by 24 inches. Several water stains and a couple of faded notes. Almost as nice as the one above. In a contemporary frame, too. An "average" example of these scarce, early United States currency issues 2950.00

Specially Priced Large Cents

Select braided hair large cents as minted from 1839 through 1857. Date of our choice—but in each case the piece represents a select example of its grade. These came from several very nice collections we purchased during recent months. Nice surfaces. Glossy color (in the case of the Uncirculated ones). We recommend these, especially at the reduced prices—offered only while this issue of the *Special Coin Letter* is in force. Choose from the following conditions:

LF-40 Regularly \$33	Special at 29.00
AU 50 Regularly \$75	Special at 67.00
MS-63, brown Uncirculated Regularly \$169	Special at 155.00
MS-63, BU Regularly \$495	Special at 475.00

More Roll Specials!

Two issues ago we offered a small group of Uncirculated rolls of United States coins—and they sold out immediately. Our stock has been somewhat replenished, and we now offer a fine, varied selection. Also, it would be a good idea to have a second choice in mind when placing your order, for we have just one of each of the following rolls in stock:

Superb 1935 Hudson Halves —from an Original Roll—

Incredibly enough, we have just purchased a pristine original roll of 1935 Hudson commemorative silver half dollars! This is the first such roll we have encountered in a quarter of a century in the rare coin business, so we highly recommend purchasing a specimen from it. Please be sure to order quickly! Bruce Lorich, Editor

A frequent publication of Bowers and Ruddy Galleries, America's largest dealer in rare coins of the United States. The *Special Coin Letter* emphasizes the changing market and offers special buys selected from our vast stock. Our comprehensive, illustrated catalogue, the *Rare Coin Review*, is issued approximately three times a year, a sample copy of our most recent issue is available for \$3 via surface mail, or we will send you a copy by First Class mail for just \$5 (the cover price, without postage, is \$5).

A subscription to our next 8 full-size catalogues (both *Rare Coin Reviews* and our frequent auction catalogues) plus lists of prices realized for included auctions and the monthly *Special Coin Letter* costs just \$15 to any address via surface mail (not recommended for overseas), \$25 via First Class mail to U.S., Canadian or Mexican addresses (strongly recommended for residents of Hawaii and Alaska), or \$37 via overseas Air Mail (recommended for those interested in bidding in our auctions because surface delivery sometimes means that the catalogue will reach you after the deadline for submitting bids).

1. Enclose full remittance with order unless credit has been established. A prompt cash refund will be given for any part of an order not filled.

2. Add \$1.50 to all orders under \$100 to cover postage and handling. All other orders are sent postpaid and insured at no charge. California residents, please add 6% state sales tax or furnish proof of resale permit.

If you are ordering for a type set, just put "same type" as your second choice and we will substitute a coin of equal or higher grade and value if the first item requested has been sold—subject to your approval, as always. Title to all items remains with Bowers and Ruddy Galleries until payment in full has been received. All items are subject to prior sale or price change without notice—but all items offered are in stock at presstime. Words on Coins

Welcome to the extra-large holiday issue of our popular *Special Coin Letter*! Within these pages you will discover some of the very best buys to be found anywhere in numismatics—with the extra bonus of dealing with the number-one name in rare coins, Bowers and Ruddy Galleries, Inc. Glance through the following pages and feast your eyes on what must be the world's finest stock of top-quality silver dollars of the United States. Touched by commemorative fever? You need look no further for the quality that counts—and if a particular piece isn't listed we ask only that you contact Jim Jones, our want-list specialist. He'll find what you need—fast—and at the right price. Want to get in on first-rate rare coin investment? Then read all about our custom-tailored investment programs—fully described in this issue. And be sure not to overlook our monthly specials: order quickly, though, as almost every special is a sell-out each month!

This holiday issue also marks a return to a monthly schedule for the *Special Coin Letter*—and our plan is to feature United States coins every month, foreign coins on alternate months. If you are a world coins buyer, we believe you'll locate at least one delightful piece within the following pages. Remember too, please, that our stock is constantly changing in this area—and a telephone call will answer your questions about new purchases. Why not call us from time to time!

A few words of wisdom (we firmly believe!) about rare coin buying: the key characteristics to look for in a dealer are *quality*, *diversity*, and *reputation*. You can be sure you'll be receiving them when you deal with Bowers and Ruddy Galleries! What do we mean? Well, you want to be absolutely certain you obtain the *quality* you're paying for when you buy a rare coin or currency item. Our long experience, together with the constant comments we receive from our most experienced customers, tells us that we deliver what many other sellers only promise. No ifs, ands, or buts! You also want to deal with professional numismatists whose inventory offers you great *diversity*—a wide variety of coins and currency of truly high quality. This way you buy what you want, not just what the dealer wishes to sell. The final necessary characteristic is *reputation*—and this intangible quality comes only after years of dealing in the most honorable, businesslike manner. Ask around—and you'll learn that ours is a reputation that others covet.

We look forward to receiving your order or correspondence—whether we're just meeting or you're an old friend!

United States Commemoratives

The commemorative craze struck American numismatics during the 1930s (although issues first appeared many years before that time), causing a strong upswing in prices. Since then, although commemoratives have traditionally fluctuated up and down to a small degree, the general trend has been decidedly upward—meaning that the craze continues. Proof of the current market's strength may be seen in what has happened to our superb, vast stock of commemorative coins—in a matter of months it has dwindled from thousands to just a few score. And we cannot easily replace what has sold. So what do we recommend? We recommend looking through the following list and buying something—anything!

Interested in Rare Coin Investment?

Let Bowers & Ruddy Galleries Help You!

Inflation is rampant! The government announced that during the first quarter of this year inflation had reached an annual rate of 9.8 percent. This obviously means that most people with holdings in traditional investment media are seeing their assets steadily erode. Indeed, one government official said recently that an inflation rate of 7 percent is "normal." Most of us would be pleased to have a guaranteed inflation rate of "just" 7 percent—as we read that in many months the cost of living goes up over 1 percent (which, on a yearly basis, is 12 percent). It is distressing to know that millions of people have assets in pension funds, savings accounts, and other areas which do not even come close to matching the "normal" inflation rate. Such investments are slipping backwards day by day, month by month, year by year.

At the same time the stock market has been disappointing. It's interesting to know that in November 1978, when these lines are further written, the Dow Jones Industrial Average stood at 792 points—which is precisely the same figure it stood at during the last day of trading 15 years earlier, in 1963!

The American dollar against the Japanese yen has dropped 40 percent in one year. Against the Swiss franc, German mark, and other currencies it has dropped as well. This has further eroded the purchasing power of every United States dollar and has fueled inflation. For coin collecting this has had a beneficial effect because foreign buyers are now bidding for United States coins more actively than ever.

Gold prices have been increasing in recent times, indicating the intense concern which the United States and international financial communities have about the world's economic situation. The United States government's sales of gold bullion in an attempt to keep the price down are viewed by some authorities as being favorable to the future price of gold—for sooner or later the American government will run out, and then what? The flight to "hard money" and hard items is reaching rare coins as well as many other tangible investment media. Obviously this means that there is an upward pressure on prices within the coin market.

And, indeed, the coin market has been excellent. Our recent auctions of the Robert E. Branigan Estate Collection and the Robert C. Hall Estate Collection saw many new price records established. *The Guide Book of U.S. Coins* and other references were often "thrown out the window" as bidders competed to acquire choice pieces.

From all indications, the coin market will continue to be strong in the months ahead. Choice and rare material is very difficult to obtain! We have been prominent professional numismatists for over a quarter of a century, and we have never seen such a shortage of top-grade pieces. All of this bodes well for people who have the proper coins in the form of balanced portfolios. As the market rises, you have a valuable stake in it.

At this point you are probably asking yourself, What should I do? Your personal situation, of course, is known

only to you. Here at Bowers and Ruddy Galleries we believe that now is an excellent time to invest in choice rare coins so as to take advantage of the increasingly strong market trends. At the same time, we urge caution. Not all coins have the same excellent investment potential. First, you must be sure that you are buying authentic coins (all coins we sell are absolutely guaranteed authentic). Second, be certain you are buying properly graded coins (Bowers and Ruddy Galleries gives a money-back guarantee as per our regular policy, and our conservative grading is famous). Third, you should do your best to purchase the right types of coins to take advantage of maximum potential increases: not all segments of the coin market move upward at the same rate or at the same time. The careful selection of a balanced portfolio of coins will allow you to take the best advantage of this market.

We offer you several ways to become involved in coin investment. The first way is to make a lump-sum investment, in the amount of your choosing. Two other ways are to participate in our well-planned monthly investment programs. We will describe each.

Lump-sum Investments

Distributing funds to include a variety of investment growth areas is a proven method of reducing risk while maximizing potential return, regardless of the medium. It has always worked well in the coin market.

The larger the investment, obviously, the greater the variety and diversification of the package. Groups of coins and/or currency will be carefully selected by the counselors in our Investment Department with the goal in mind of choosing those items which, in our opinion, exhibit the greatest potential for price appreciation. The amount to be invested is entirely up to you. We offer two options:

United States coins and/or currency. Our expert numismatists will send you truly select United States coins (grading MS-63, Brilliant Uncirculated—or better) and/or currency (Crisp New or better). You may choose to leave the selection up to us, or you may indicate a special preference—for gold, silver, copper, select rarities, currency, pattern coins, or whatever.

Foreign coins. From our World Coins Department will come high-quality coins which have proven historic interest and excellent potential for price appreciation. Again, you are welcome to specify any areas of special interest, or allow us to make the choice for you based on our long-time professional experience.

If you have any questions, we would be most happy to answer them for you. Please feel free to write or call. If you are currently a member of any of our collection/investment programs, we will arrange these new purchases to assure that items will not be duplicates of anything we have sent you in the past (unless you would like duplicates). In short, this outstanding program allows you to create a custom collection, or to simply

make a well-diversified, intelligent investment in rare coins of proven value. As the market is extremely active, however, we strongly urge you to begin today.

20th-Century Investment Program

Our extremely popular 20th-Century Investment Program allows you to make systematic purchases of top-quality coins of this century. The normal amount is \$50 per month (or any other interval of your choosing).

Coins of the 20th century are in great demand! Lincoln cents, buffalo nickels, mercury dimes, standing Liberty quarters, Washington quarters, walking Liberty half dollars, Morgan and Peace dollars are among the most popular of all coins at the present time. This trend promises to continue as collectors and investors realize just how rare many of these pieces are in full Uncirculated grade. As a member of this program, you will receive first choice of our many new acquisitions each month.

It couldn't be easier to participate. Within this program you will receive high-grade, valuable coins dated 1900 and later. You may pay for them ahead of time or receive them on approval (before coins are sent on approval, proper credit references need to be established; please send us your Social Security number, bank and credit card references, and account numbers). Any coin may be returned to us within 15 days of receipt if, for any reason, you are not pleased with it. As you pay for each coin, you will receive the next one for your collection. If you choose, you may discontinue at any time; there is no commitment on your part. We offer the following three programs:

Program 1. Twentieth-century coins in Uncirculated (MS-63, MS-65, or higher) grade will be sent each month without attempting to complete any series. No duplicates will be sent.

Program 2. A complete 20th-century set of copper, nickel, and silver coins will be formed. Grades will range from Choice EF-45 for the key and semi-key issues to lovely Uncirculated (MS-63 or better) for the less rare pieces.

Program 3. A custom plan designed for collectors desiring to complete a particular 20th-century series. Coins selected for you will be in the highest grades consistent with your budget. You decide what series and grades you want. Choose from Lincoln cents, buffalo nickels, mercury dimes, standing Liberty quarters, Washington quarters, walking Liberty half dollars, and Peace dollars.

Collection/Investment Program

The expert numismatists on the Bowers and Ruddy Galleries staff will work to build your collection/investment portfolio. Coins are carefully and accurately graded by the ANA system and have a money-back guarantee. In addition, every coin is guaranteed genuine—this is a lifetime guarantee. Over the past decade we have had thousands of satisfied clients—who have usually remained in our program for many years because they see results!

We offer a wide variety of programs to choose from. Fill in the coupon and we will send you, at no charge, our informative brochure, "Rare Coins as an Investment." It outlines the advantages of rare coins as an investment and describes the programs we offer.

Or get started right away! Enclose a check for \$100 (the minimum monthly involvement) or more and we will enroll you in our Basic Collection/Investment Program and send you a copy of the latest revised (1978) edition of *High Profits from Rare Coin Investment* absolutely free. The basic program consists of United States coins of various series. Over a period of time you will receive beautiful copper, nickel, silver, and gold issues, commemoratives, and other pieces which have appreciated nicely in value in the past. Your collection will be diversified to include a wide range of dates, denominations, and mintmarks.

When you join this or any of our other programs, you are under no obligation and may discontinue participation at any time. We believe you'll be with us for a long time! In any event, the informative investment book, a \$6.95 value, is yours to keep.

Two Great Books for Numismatists!

High Profits from Rare Coin Investment

by Q. David Bowers

— Brand New Edition,
Published November 1978 —

Just published by Bowers and Ruddy Galleries is the brand-new edition of our very popular *High Profits from Rare Coin Investment*. This, the third major revision of Q. David Bowers' investment guide, is packed with up-to-date statistics compiled from a variety of sources. Now in this edition, comparative coin price-growth spans three decades, from 1948 through 1978.

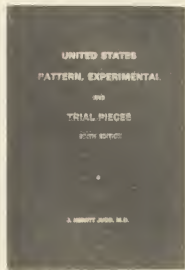

Topics covered in detail include a general, introductory discussion of coins as an investment (to bring the person new to numismatics up to a level where he can begin to understand the mechanics of the rare coin market), a brief history of the progression of numismatics from a pastime to a field ripe for big-time investment opportunities, a series of answers to the most commonly asked questions about coins as an investment medium, a general history of American coins and currency, a suggested approach to building a significant collection-investment portfolio of rare coins, and areas where specialized investing is possible.

Aside from the facts and figures, Dave Bowers provides a lively, highly readable text which is filled with personal anecdotes and insights. Bowers has often been called "the expert's expert," and while reading his book you are sure to understand why: it contains the kind of information which comes only after years of concentration upon a subject—true expertise! Many pictures and charts round out the wealth of information found inside the bright, new covers of this latest edition of a numismatic best seller—one you'll surely profit from having on your shelf. Order one right away!

Paperbound. 208 pages with many illustrations. A quality publication from Bowers and Ruddy Galleries. Priced at just \$6.95 per copy, postpaid.

United States Pattern, Experimental and Trial Pieces

by J. Hewitt Judd

Newest (sixth) edition of the essential patterns book. A quality hardbound book of 276 pages listing all known varieties of United States pattern coins. While this book is fundamental to the formation of a collection of patterns, it is also loaded with information for the general collector who wishes to understand why coin designs are selected and what designs *almost* appeared on our national coinage. Highly recommended for all collectors and investors!

Hundreds of photographic illustrations, along with price revisions on many varieties and even some additional pieces which appeared first in this edition, make the book easy to use and most valuable. Designers and the varieties they created are discussed in detail. Periods are described, and most years' issues are prefaced by an introduction which explains how and why they came to be.

The book's introduction narrates the history of pattern collecting in America, mainly as it derived from the famous Adams and Woodin reference on patterns, the only other such book ever published (which the present volume made obsolete by its more thorough investigation of the series). Also explained are such criteria as rarity, values, and numismatic oddities listed in various appendixes to the book. This is a reference we have always highly recommended as background reading. Available for \$17.95 per copy, postpaid.
